

## Important Updates to Your Banking Segment

This notice is intended for Citibank International Personal Bank Singapore customers only.

At Citi, we are committed to partnering with you on your wealth journey as you work towards your wealth goals. We understand that your aspirations and goals evolve over time, which is why we are continuously reviewing the banking support we provide to ensure it suits your changing needs.

We would like to inform you that there will be a change in the way we determine the banking segment of an individual. With effect from January 1, 2025, a client's banking segment will be based on the Assets Under Management (AUM\*) that is aggregated across the account(s) in which they are the main account holder. This means that the AUM in any account(s) where a client is the secondary account holder will be excluded in determining their individual banking segment.

The table below shows the banking segments and the associated AUM to be maintained in a client's main account(s):

| <b>Banking Segment</b>  | <b>AUM* maintained with Citi</b>   |
|-------------------------|------------------------------------|
| Citigold Private Client | US\$1,000,000 and above            |
| Citigold                | US\$200,000 to below US\$1,000,000 |
| Citibanking             | Below US\$200,000                  |

Thank you for your continued trust in Citi as your preferred wealth management partner. Should you have any questions about the change or require further assistance, please reach out to your Relationship Manager.
