

Updates to Citi Mobile® Token (effective April 2024)

With the introduction of enhanced capabilities on Citi Mobile® App, the Citi Mobile® Token will be discontinued from Apr 2024.

Following the discontinuation, you will not be able to perform high-risk transactions such as adding new payees, personal information update, high value funds transfer, etc. unless you register for enhanced security capabilities on your Citi Mobile® App.

As part of our efforts to protect you from SMS-related phishing scams, we strongly encourage you to register for ***Citi Mobile® App with enhanced security***.
